

Tiger-Consulting Newsletter – July 2015

July 31, 2015

[Tiger-Consulting](#), an Asia based American-owned and managed firm specializing in Asia HR, payroll and business support services has expanded its benefit services to provide local and international medical, dental, travel, and life insurance for clients and non-clients, individuals, families, and groups across Asia. With offices in 14 Asian countries, as well as the UAE and USA, Tiger-Consulting offers a full suite of regional insurance benefits.

“To get health coverage in Asia through us, you don’t need to work for a company that we support,” said CEO, Neil Satterwhite. “To get ‘group coverage’ pricing, we’ll bring individuals under our umbrella. What’s more, our group plan is mobile. It can be structured to move with the policy holder from country to country, job to job.”

“For over 25 years, Tiger-Consulting has made life easier for businesses to set- up shop in Asia. Now we have expanded in the UAE. Our client and individual policyholders have the power to select their own health plans. It’s their choice. They decide what’s best for them, their family and their budget,” said Satterwhite.

Tiger-Consulting finds local health insurance solutions with the highest service standards, compliant with local laws and regulations. Clients can choose from quality plans through local and international providers.
