

Greetings from Tiger- Consulting Asia

December 2015 Newsletter

Many US companies, small and large, want to employ staff overseas and distribute their products and services in international markets. The decisions on how to do business outside one's home country must be made by each company. There are global mobility challenges to consider such as tax compliancy, immigration, compensation and benefits, policy management and payroll. How do you keep track of multiple countries and be compliant? Global focus on compliance has intensified in the last few years. Even large companies often don't know how to address very different ways of doing business in different countries.

Tiger Consulting has 26 years of experience assisting companies (big and small) to hit the ground running effectively, efficiently and legally across Asia and the UAE while remaining compliant with local labor laws and employment regulations. We are committed to making international expansion easier for businesses. More importantly, our experienced staff will help your company to successfully grow operations as needed.

*Sincerely,
Neil Satterwhite
Founder & CEO, Tiger-Consulting*

"2015 was a rewarding and busy year! We've continued to improve and expand our services across Asia and the UAE. It was another "win-win" year for our clients, partners, and Tiger Consulting. Thank you for your continued support. Here's to a Terrific Holiday Season to you and your families," said Neil Satterwhite, Tiger-Consulting Founder & CEO
