We find local health insurance solutions with the highest service standards, compliant with local laws and regulations.

Our clients can choose from quality plans through local and international providers along with the convenience of our offices in 14- Asian countries, as well as the UAE and USA. We work with different health Insurance carriers and agents in order to tailor solutions to our clients depending on their country and specific needs. Anyone is eligible to receive benefit services as long as it is in compliance with the local laws of the host country.

In the event of a pre-existing medical condition, an assessment will determine final eligibility. Pricing and family member eligibility will vary depending on age and medical history. Furthermore, dental coverage can be included as an add-on to a medical plan in most cases. We even offer life insurance plans with eligibility being very similar to the requirements of the health insurance solutions.
