

# Greetings from Tiger-Consulting Asia

## Tiger-Consulting Newsletter – February 2018

February 1, 2018

**Dear Loyal Clients and Partners** – We are proud to provide quality solutions and professional advice while enabling your company to open up shop across multiple continents. Our goal for over 27 years now is to make it as easy as possible for Western and European businesses to join-and succeed-in the thriving Asia markets. We now offer HR, Payroll and PEO support in Sri Lanka. Sri Lanka's economic potential is considerable as they move toward greater integration with regional and global markets and boost their economic resilience. It has a vital position in Asia, the fastest growing region in the world and its recent key investments in ports and other transportation related facilities combined with its strong base of human capital and reliable infrastructure can take advantage of this opportunity. We will help with the complexities of international expansion. Thank you for your continued support." *Warm Regards – Neil Satterwhite, Founder and CEO*

### Our Country Manuals:

Employment in each country is different. Our country manuals outline general employee practices and regulations for each country in Asia that Tiger Consulting represents including basic information surrounding Holidays, Leave and Benefits. [Learn more](#)

### Check Out our latest blog, "Vietnam 2018":

"Vietnam's effort to attract more foreign investment in 2018 are expected to be even a further breakthrough." [Learn more](#)
